

CONSTRUCTION ALERT

Lane and Sidewalk Closure at Bridge May 14 through 21; Work on US 60 West of Wickenburg

Minor lane and sidewalk restrictions will be required from May 14 to 21 in Wickenburg in order to keep construction workers, motorists, and pedestrians safe as crews work to relocate utility lines.

- The right-hand lane of westbound Wickenburg Way across the Hassayampa River Bridge will be closed to allow crews to complete the relocation of a Southwest Gas line. The sidewalk in this area will also be closed for pedestrian safety. The lane and sidewalk closures will occur during weekday work hours only.
- Parking restrictions on Kerkes Street will continue through May 23 to accommodate the relocation of APS and Cox Communications utility lines.

In an unrelated project, ADOT is currently placing a chip seal on 22 miles of US 60 between Wickenburg and Aguila. This work is anticipated to continue until May 23. One lane of the highway will be open at all times and crews will use pilot cars to direct traffic.

Drivers are encouraged to give themselves extra travel time and to be prepared to slow down approaching the work zone. While ADOT strives to inform the public about planned roadway restrictions, during any complex construction project, there is a possibility that unscheduled closures or restrictions may occur. Please visit ADOT's Travel Information Site at www.az511.gov or call 5-1-1 for the most current information about planned restrictions in the area.

ON THE MOVE

PARTNERS IN PROGRESS

The Wickenburg Interim Bypass is part of the 2004 voter-approved Regional Transportation Plan for Maricopa County. We are working hard with our transit partners to implement the voters' vision and are committed to quality, safety, open communication with our neighbors, and minimal inconvenience to the traveling public.
